

I have been affiliated with the Clavidistas Del Sol dive club for a little over a year. My 13 y/o son Zachary is a Bronze II level diver with no diving experience prior to joining the club. Though I am very pleased with the current direction of the club, I feel I can offer a different perspective and a “fresh set of eyes” in order to assist the club in moving forward. I am very interested in being a part of my son’s activities and to assist other parents, both new and experienced, as they grow with the club.
