

## Lia's Bio

CdS has gone through lots of changes over the last number of years. From the constant changes in Board members, new coaches and pool staff management, to a huge increase in the number of divers and income in our program. I have been a constant on this board for the last 2 ½ years, and member of this great team for 3 ½ years. I have been taking care of the team finances, and have developed our current system of invoicing and accounting. My son began on this team as a Bronze diver, moved on to Silver and eventually worked his way up to the Gold group. I have enjoyed meeting all of the new families that make this team what it is, and welcoming them and their divers to CdS. It has been of huge importance to me to see to it that all of the families feel welcome, up to speed, informed and enfolded. This election is an exciting one, as all of the positions (with the exception of Josh's) are up for re election and most of the candidates will be first time board members. I have worked closely with the coaches, pool staff, and parents and feel that I have the experience to work with a board of new members during this time of exciting transition for CdS.
