Skills! Skills! and more  
Skills while having lots of

### Why Futsal?

Futsal is the only indoor soccer game sanctioned by FIFA. If skill development is important to you, then Futsal is the way to go. Futsal is recognized as clearly the best form of indoor soccer. Futsal promotes quality touches and eliminates the potential for injuries associated with wall collisions.

### Is Futsal better?

FIFA says Futsal is better. The world's soccer phenoms are among the many that swear by it. Pele, Ronaldo, Robinho, Romario, Zico, Adriano, Kaka and Bebeto all credit Futsal for much of their skill and technique development at a young age. All the major heads of Soccer and FIFA declared that Futsal is the way to go. Once you experience Futsal, you will see for yourself.

### What the Pros are saying!

"As a kid, you need to touch the ball as much as you can. You should always be with the ball. You should have a feeling that wherever the ball is, you can do anything with it. No matter where it is, where it is on your body, how it's spinning, how it's coming at you, the speed it's coming at you, anything. You can learn the tactical side of the game later. It's amazing to me that people put so much emphasis on trying to be tactical and worry about winning when it doesn't matter when you're 12 years old. We're going to have big, strong, fast players. We're Americans, we're athletes. But if we never learn at an early age to be good on the ball, then it's just useless." - **Landon Donovan, US National Team**

**Ronaldo**, the great Brazilian player developed his skills at an early age with Futsal. "At 12, I joined an indoor "Futebol' De Salao" league to play Futsal. Futsal is a game played on a hard surface with a small ball made to roll -- not bounce. Your footwork had to be good to move in and out of traffic, since the pitch was so small -- about the size of a basketball court. I loved the challenge of playing in such tight spaces." - **Ronaldo, National Team, Real Madrid**
