

Beverley Manners

**What Michael Tucker had to say**

“I have not heard of this person Beverley Manners and I don’t recall her ever coming to me for training. In the past people have used my name for their own gain. She prints: After graduating from the Michael Tucker Dog Psychology course.....apart from not recalling her name nor recognizing her in photographs. I do not run Dog Psychology Courses. I run dog training courses in which I do touch on canine psychology here and there. No one ever graduates from my dog training courses. They attend and I am happy to help them. They don’t have to take an exam and I don’t issue diploma’s.

I guess Beverley is trying to cash in on my reputation, she is using my name to boost herself and what she is doing. I’m sure more and more people will find out that she is a person up to no good.

Regards Michael Tucker”

**Michael Tucker is a noted author of 5 dog training books, operates a dog training school in Victoria, and is the President of the [Australian Association of Professional Dog Trainers](#).**
